Long Beach, CA  
(925) 482-4361

**OBJECTIVE:** Self-motivated and driven individual, with experience in analyzing large datasets, looking for a position in finance to support company development.

## EDUCATION

University of California, Irvine  
B.A. Business Economics

Irvine, CA  
Graduated: March 2019

## BUSINESS EXPERIENCE

Raytheon Space & Airborne Systems  
Financial Analyst I

El Segundo, CA  
June 2019 - Present

- Utilize Earned Value Management techniques such as EAC, LRE, CPI, SPI, etc. to analyze performance of a \$1.1B contract
- Act as the Finance Lead for an Internal Research and Development subprogram and an Integrated Products Team for the Next Generation Jammer Program.
- Support integration of a \$403M contract award into SAP APEX corresponding to the Master Schedule
- Update quarterly forecasts with latest budget changes and factored risks and opportunities.
- Pull over 200,000+ rows of data from SAP APEX and PRISM on a weekly cadence to create, update and analyze reports to track program labor, material, G&A, and other direct costs
- Prepare and present Program Performance Reviews to the program staff consisting of 25+ individuals on a weekly cadence to address contract status, actuals vs. baseline budget vs. LRE, and highlight current and upcoming events
- Perform month end data integrity validation with PMX Tool to identify data anomalies and inform the corresponding IPTs of clean up necessary
- Upload baseline budget changes of \$25K and higher to SAP APEX and PMX Tool

## ASICS America

Finance & Accounting Intern

Irvine, CA  
June 2018 – April 2019

- Created budget reports to analyze current trends for 50 retail stores' expenditures, and merged the actual expenditures to the forecasted 2018 budget; utilizing excel, pivot tables, BEx Reporting and SAP
- Analysis of current processing merchant services identifying current costs, most optimal interchange rates, card brand assessments and negotiate terms; using expected value per transaction through multiple regression analysis
- Analysis of freight shipping expenditures between our current supplier and potential suppliers; identified seasonal trend in inefficiencies for the scheduled ordering of out-of-store bags that cost the company over \$150K per year
- Producing reports with pivot tables to represent data useful to procurement analysis; goal for 2019 is to save \$1.7M in operating expenditures: office supplies, freight/shipping, retail/outlet store operating costs

## Zero Energy Co.

Program Facilitator

Cerritos, CA  
June 2017 - September 2017

- Worked with homeowners to finalize sales in solar panels and other home contracting work
- Generated \$25K in revenue for Zero Energy
- Discussed all financing options that suited homeowners best and handled all communications with financing companies.
- Submitted contract payments from clientele via electronic payment information or written checks to the financial department
